DESIGN SPEC / 01

# EDUHUB

## Wireframes & Mockups

System Analysis & Design | Full-stack graduation project

Student, Instructor and Administrator experiences

**SOURCE-ALIGNED DESIGN DOCUMENT**

Requirements PDF + live EduHub Figma file | 05 Nov 2026

# Design brief & evidence

What this submission documents - and what it does not

## Deliverable definition

A structured visual specification of EduHub screens, layout hierarchy, navigation and observable interaction states. It links low-fidelity wireframes to Figma-aligned high-fidelity redraws.

### 01 Wireframes

Low-fidelity hierarchy, essential controls and page regions.

### 02 Mockups

Styled visual representations based on the supplied Figma.

### 03 Annotations

Actors, screen purposes, action rules and UI states.

### 04 Traceability

Page references back to EduHub project requirements.

## Authoritative inputs

Project brief: 5-page PDF outlining course management, student learning, payments, quizzes, certificates and admin workflows.

Design source: existing Figma screens, across desktop (1440), tablet (834) and mobile (390).

## Reading convention

WIREFRAME DESIGN REDRAW

Vector mockups in this PDF are faithful illustrative reconstructions, not literal image exports from Figma. Follow the linked node for the editable original.

# Role-based information architecture

Primary journeys extracted from the EduHub requirements and existing design

## STUDENT

1. Public home / catalog
2. Sign in / create account
3. Student dashboard
4. Course details
5. Free enrollment or checkout
6. Video lessons + notes
7. Final quiz + feedback
8. Certificate / verification

## INSTRUCTOR

1. Sign in
2. Instructor dashboard
3. My courses
4. Create / edit course
5. Curriculum + videos
6. Submit for approval
7. Enrollments / analytics
8. Student Q&A

## ADMIN

1. Sign in
2. Admin dashboard
3. Review course approvals
4. Approve / reject
5. User management
6. Payments / refunds
7. Revenue / reporting
8. Configuration

# Figma coverage: screen inventory

Representative original frames and supported viewport families

| SCREEN FAMILY | VARIANTS / COVERAGE | REF |
|---|---|---|
| **Homepage** | Desktop / Tablet / Mobile | 70 |
| **Explore Courses** | Desktop / Tablet / Mobile | 22 |
| **Sign in** | Desktop / Mobile | 7 |
| **Create account** | Desktop / Mobile | 4 |
| **Password recovery** | Desktop / Tablet / Mobile | 70 |
| **Student dashboard** | Desktop / Tablet / Mobile | 9 |
| **Course details** | Free + enrolled variations | 22 |
| **Checkout + outcomes** | 3 viewports + states | 22 |
| **Course learning** | 3 viewports + note/resource states | 22 |
| **Final quiz / results** | 3 viewports + pass/fail | 22 |
| **Certificates** | 3 viewports + unavailable | 22 |

| SCREEN FAMILY | VARIANTS / COVERAGE | REF |
|---|---|---|
| **Profile / notifications** | 3 viewports + save/error states | 70 |
| **Instructor dashboard** | Desktop / Tablet / Mobile | 18 |
| **Create / edit course** | Desktop / Tablet / Mobile | 18 |
| **Curriculum / lessons** | Desktop / Tablet / Mobile | 18 |
| **Students / analytics** | Desktop / Tablet / Mobile | 18 |
| **Settings / profile** | Desktop / Tablet / Mobile | 18 |
| **Admin dashboard** | Desktop / Tablet / Mobile | 26 |
| **Course approvals** | Desktop / Tablet / Mobile | 26 |
| **User management** | Desktop / Tablet / Mobile | 26 |
| **Payments** | Desktop / Tablet / Mobile | 26 |
| **Detail / dialog states** | Approval, refund, access | 26 |

# Visual language & responsive rules

Values and patterns observed in Figma; interaction guidance follows accessible UI conventions

## Observed palette

**Primary**
#2563EB

**Dark type**
#101C34

**Info background**
#EFF6FF

**Canvas**
#F6F8FC

**Border**
#DFE6F0

**Success**
#15803D

## Typography & hierarchy

Sans-serif, bold display headings; 3 levels of text emphasis; short labels and restrained microcopy. PDF redraw uses DejaVu Sans for portability.

## Responsive breakpoints seen in design

**1440 px** — **Desktop**
Persistent sidebar; multi-column cards & tables.

**834 px** — **Tablet**
Collapsed grids, adjusted content columns.

**390 px** — **Mobile**
Vertical stacking; compact top nav and actions.

Implementation checkpoints: keyboard focus, readable contrast, field errors, button targets, and non-color status labels.

# WF-01 Public landing & discovery

Entry point | Guest and authenticated visitor

## ANNOTATED STRUCTURE

1. **Discover**
   Hero explains benefits and routes to catalog.

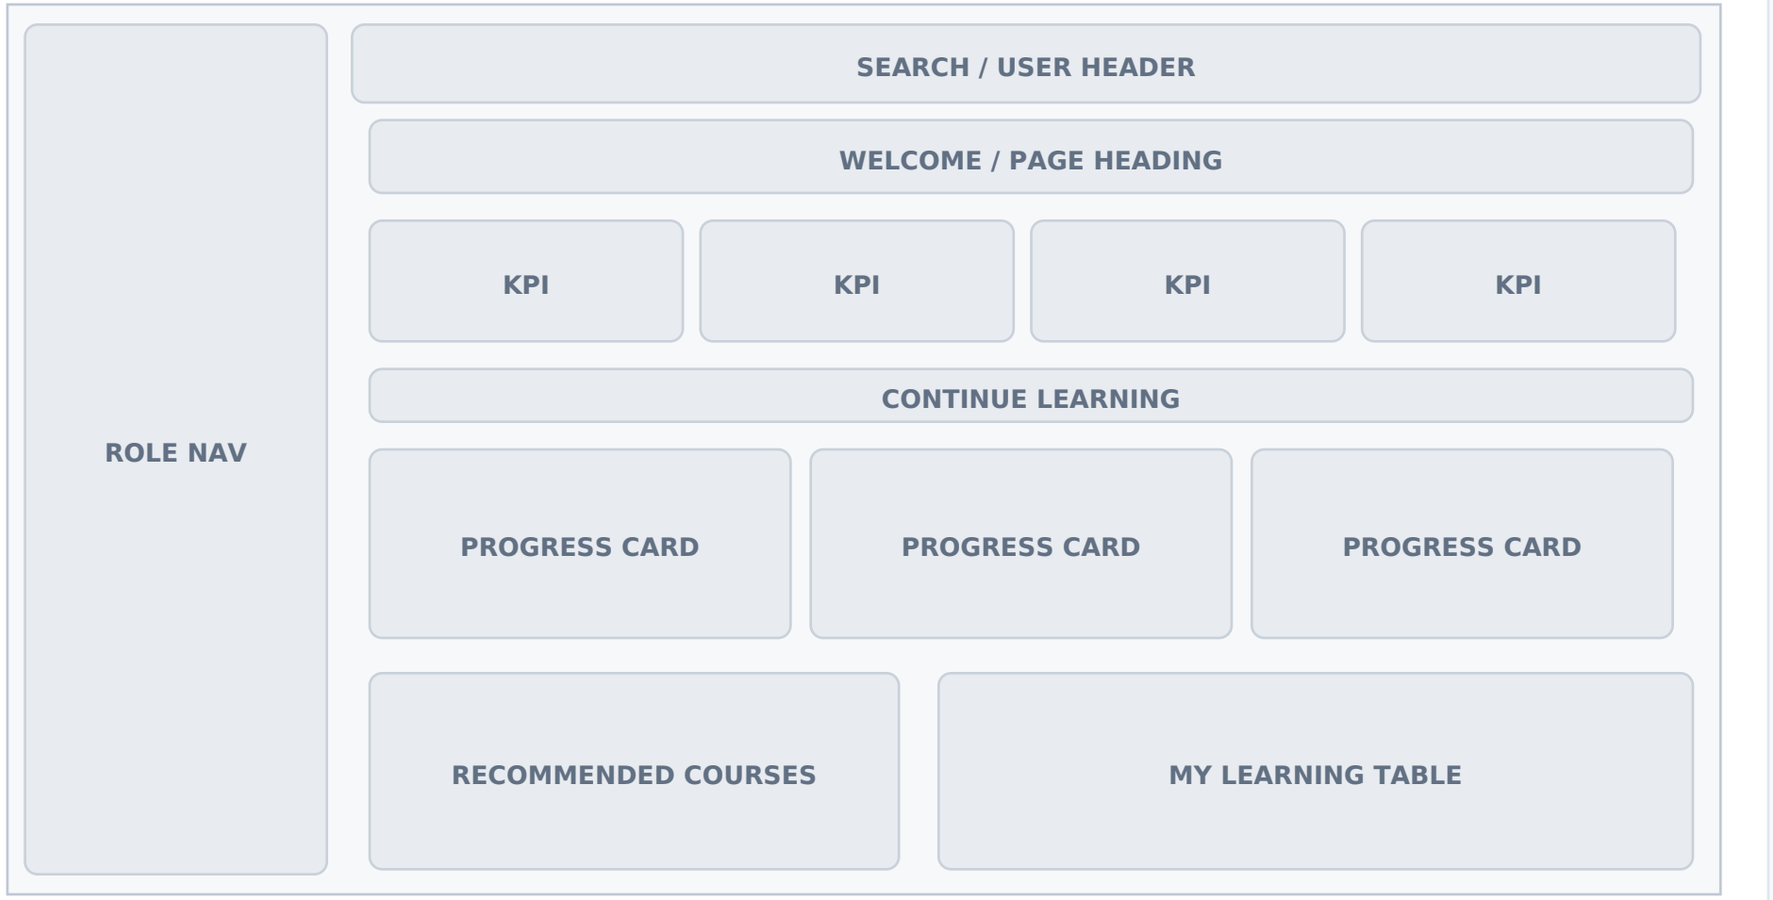

2. **Find**
   Search + subject/category navigation.

3. **Evaluate**
   Course cards expose summary, level and price.

4. **Convert**
   Visible join and view-course actions.

# WF-02 Student dashboard

Role: Student | Post-login workspace

## ANNOTATED STRUCTURE

1. **Orientation**
   Greeting plus enrolled and completed KPIs.

2. **Resume**
   Continue learning shows course progress.

3. **Discover**
   Suggested courses support exploration.

4. **Monitor**
   Learning list and completion states.

# WF-03 Checkout & payment

Role: Student | Paid-course purchase

## ANNOTATED STRUCTURE

1. **Context**
   Course and clear payment context.

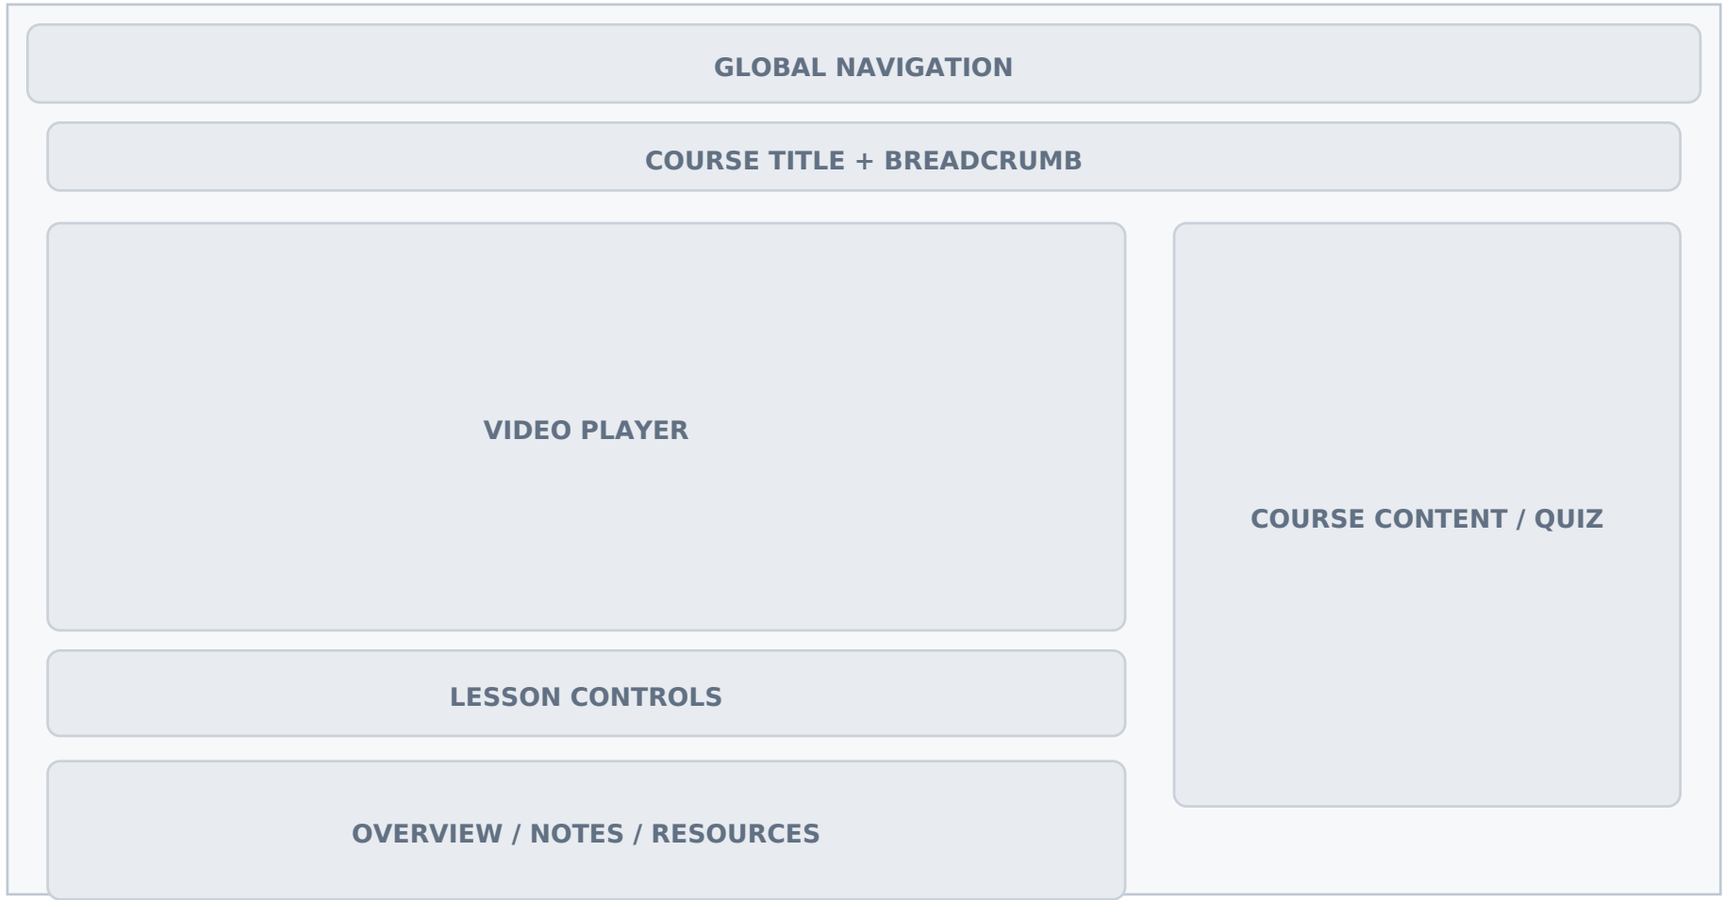

2. **Payment form**
   Method choice and required entry fields.

3. **Review**
   Order subtotal, discount and total.

4. **Outcome**
   Processing, success and failed states.

# WF-04  Course player & assessment

Role: Student | Learning & final quiz

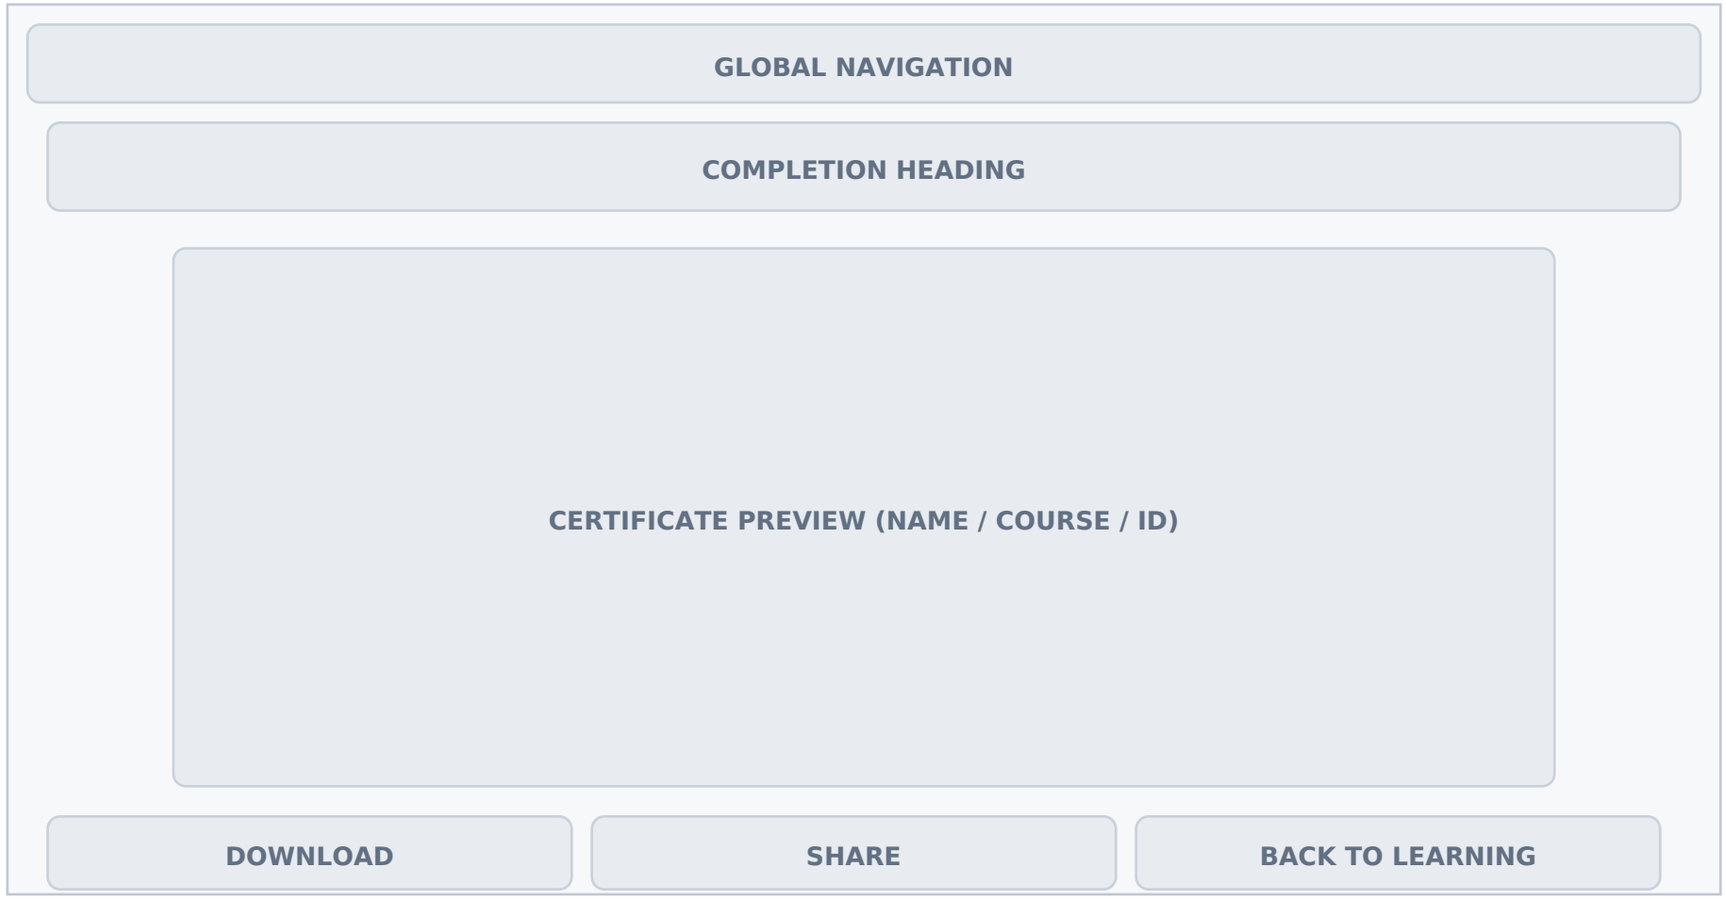

## ANNOTATED STRUCTURE

1. **Watch**
   Video playback with accessible controls.
2. **Track**
   Lesson list and progress percentage.
3. **Interact**
   Notes, resources and completion actions.
4. **Assess**
   Final quiz unlocked by course policy.

# WF-05 Certificate experience

Role: Student | Completed course

## ANNOTATED STRUCTURE

1. **Celebrate**
   Confirmation of passed completion.

2. **Identify**
   Student, course, date and certificate ID.

3. **Export**
   Download PDF and share controls.

4. **Verify**
   Public verification via unique code.

# WF-06 Instructor authoring

Role: Instructor | Draft and publish a course

## ANNOTATED STRUCTURE

1. **Author**
   Title, description, category and level.

2. **Package**
   Thumbnail and free/paid pricing.

3. **Structure**
   Sections and lesson media follow form.

4. **Review**
   Save draft; submit for admin approval.

# WF-07 Admin oversight

Role: Administrator | Quality and operations

## ANNOTATED STRUCTURE

1. **Observe**
   Platform KPIs and pending approvals.

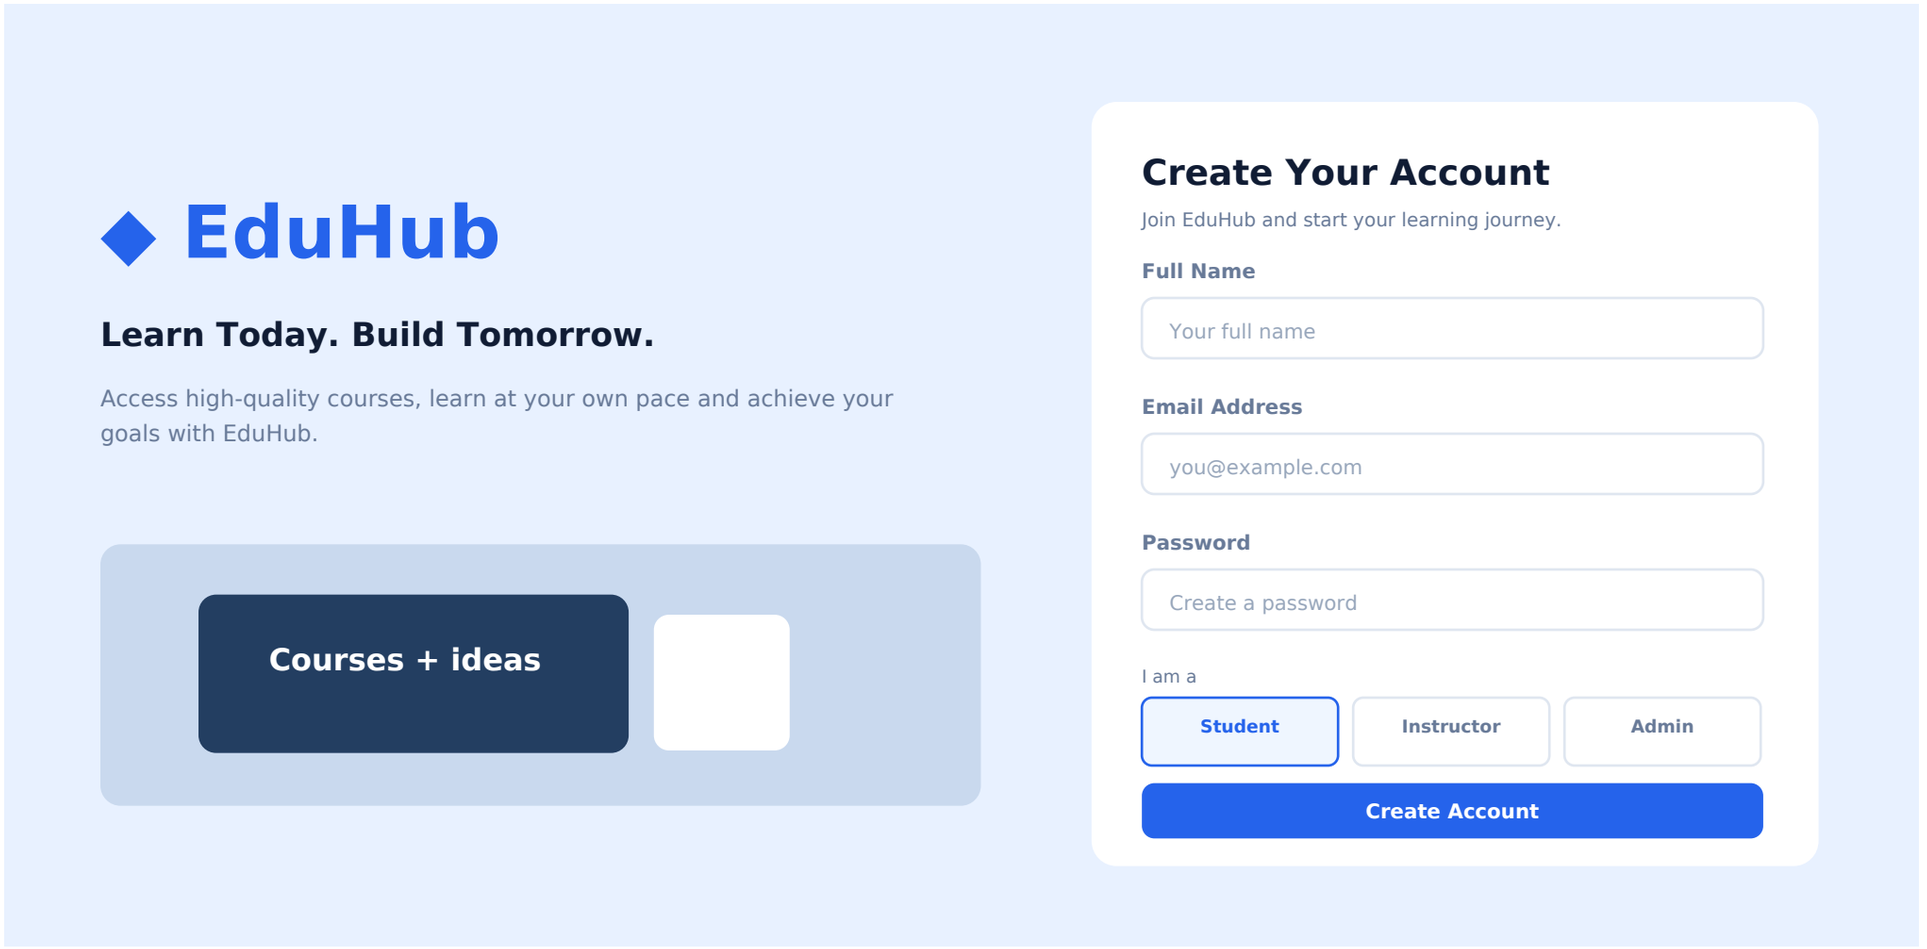

2. **Filter**
   Find submissions by status or date.

3. **Decide**
   Review, approve or reject courses.

4. **Audit**
   Statuses, history and operational tables.

# MU-01 Registration / onboarding

Figma source: Create account - desktop

## SCREEN NOTES

ROLE

**Guest**

1. Sign-up fields and input masks
2. Role selector exposes three roles
3. A clear primary account CTA

FIGMA SOURCE ↗

# MU-02 Student workspace

Figma source: Student dashboard - desktop

## SCREEN NOTES

**ROLE**

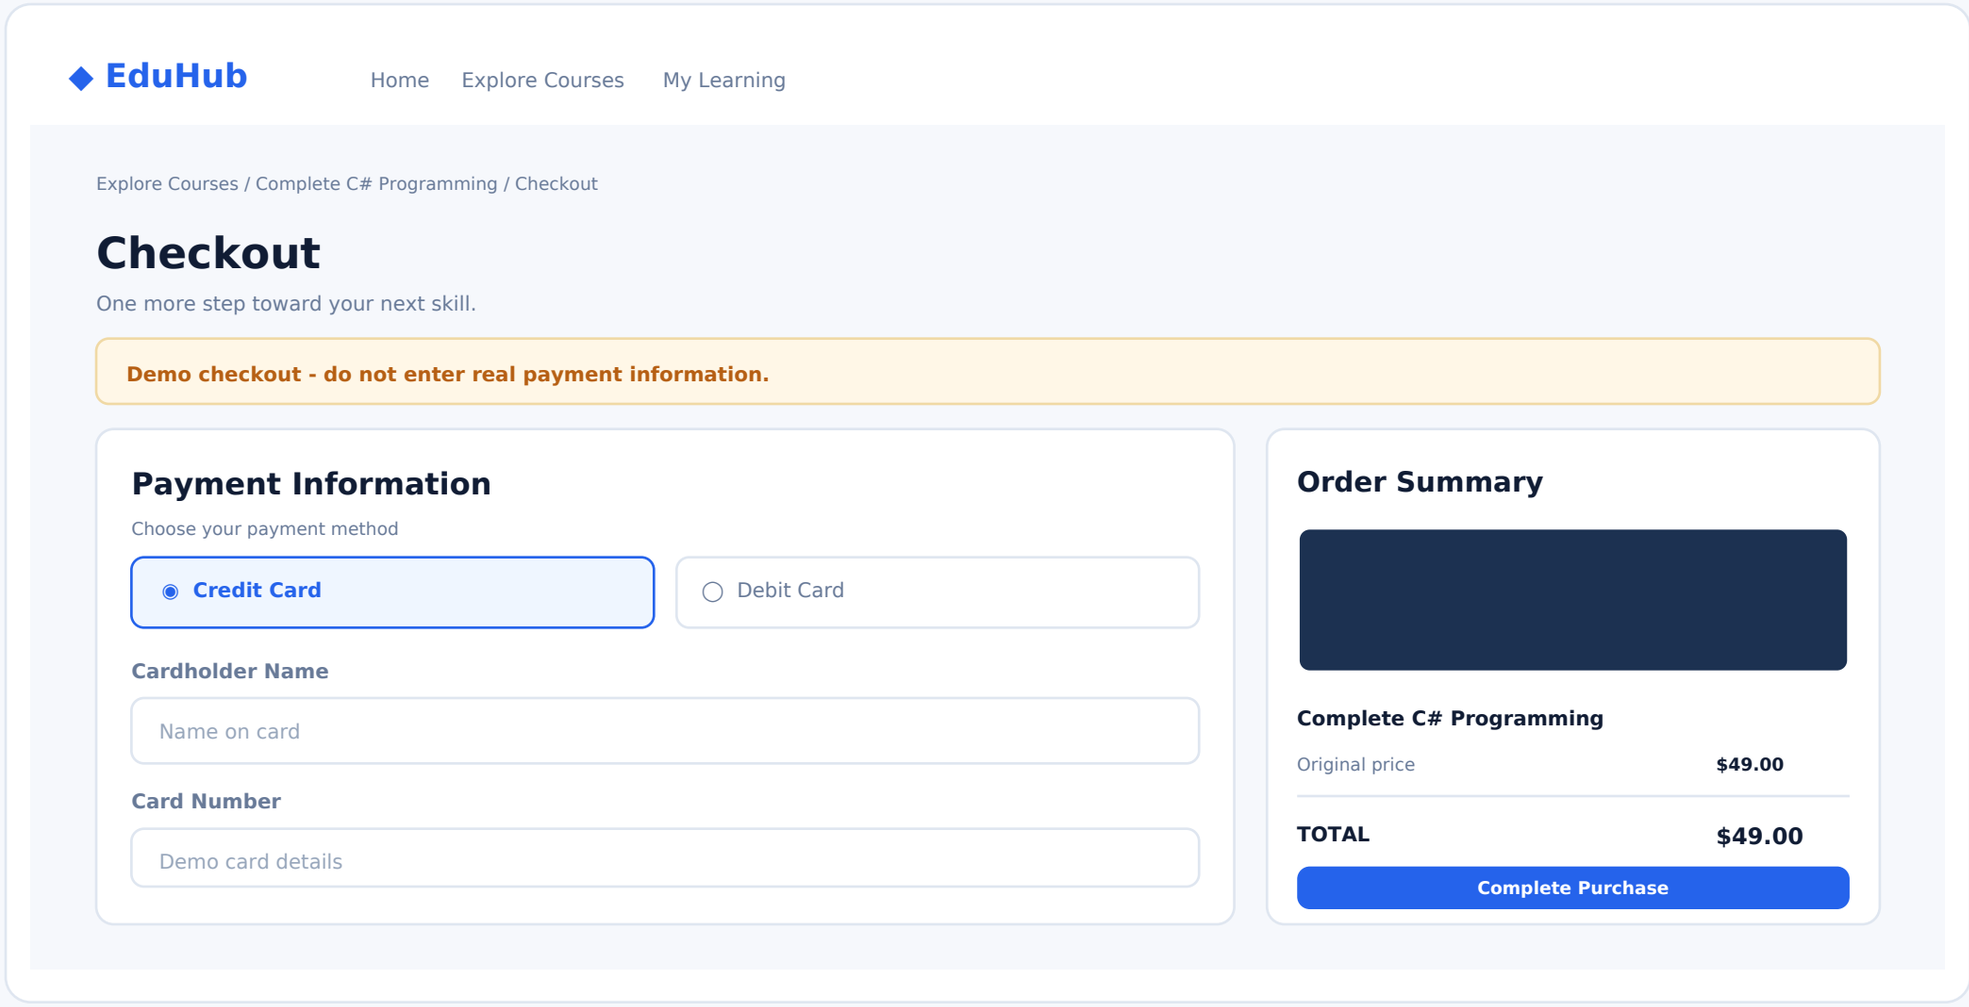

**Student**

1. Persistent role navigation
2. Four progress KPIs
3. Cards link to continued lessons

FIGMA SOURCE ↗

# MU-03 Secure checkout

Figma source: Checkout - desktop

## SCREEN NOTES

**ROLE**

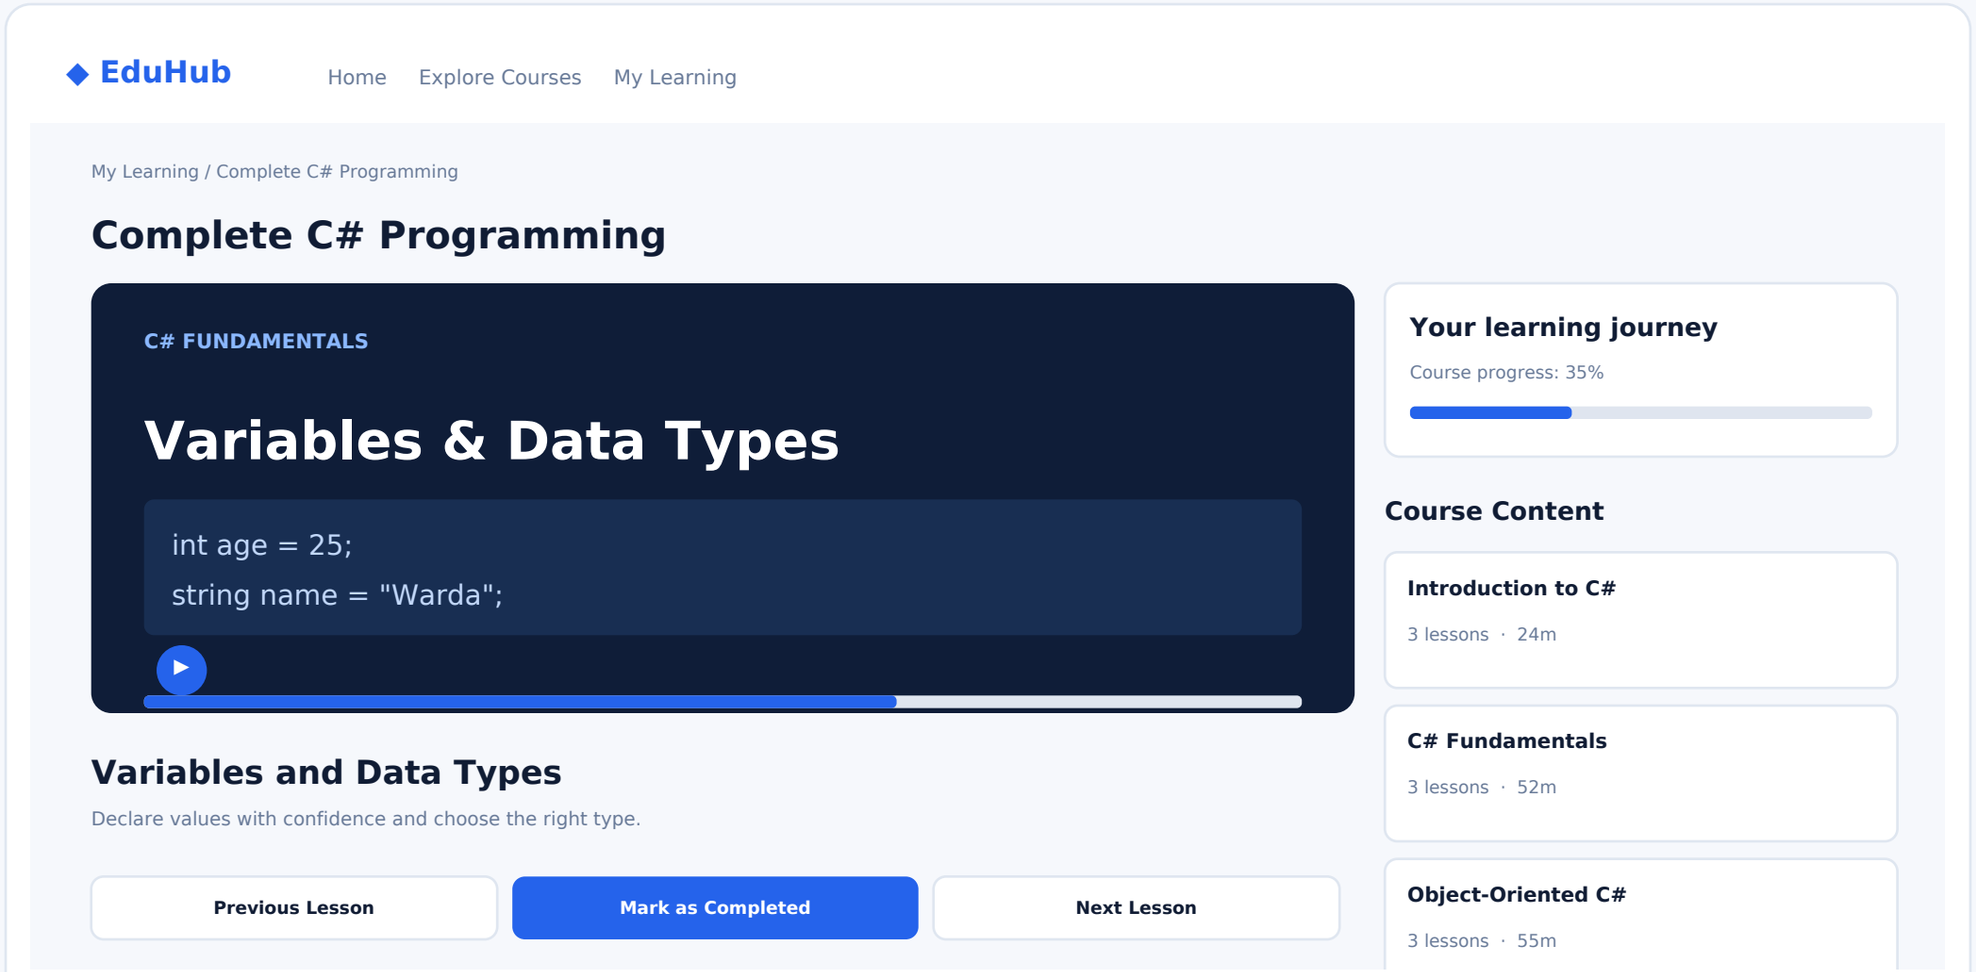

**Student**

1. Demo payment warning
2. Payment method & entry form
3. Transparent order summary

FIGMA SOURCE ↗

# MU-04 Learning player

Figma source: Course Learning - desktop

## SCREEN NOTES

**ROLE**

**Student**

1. Video player / current lesson
2. Progress and section navigation
3. Lesson completion + notes

FIGMA SOURCE ↗

# MU-05 Completion certificate

Figma source: Certificate - desktop

## SCREEN NOTES

**ROLE**

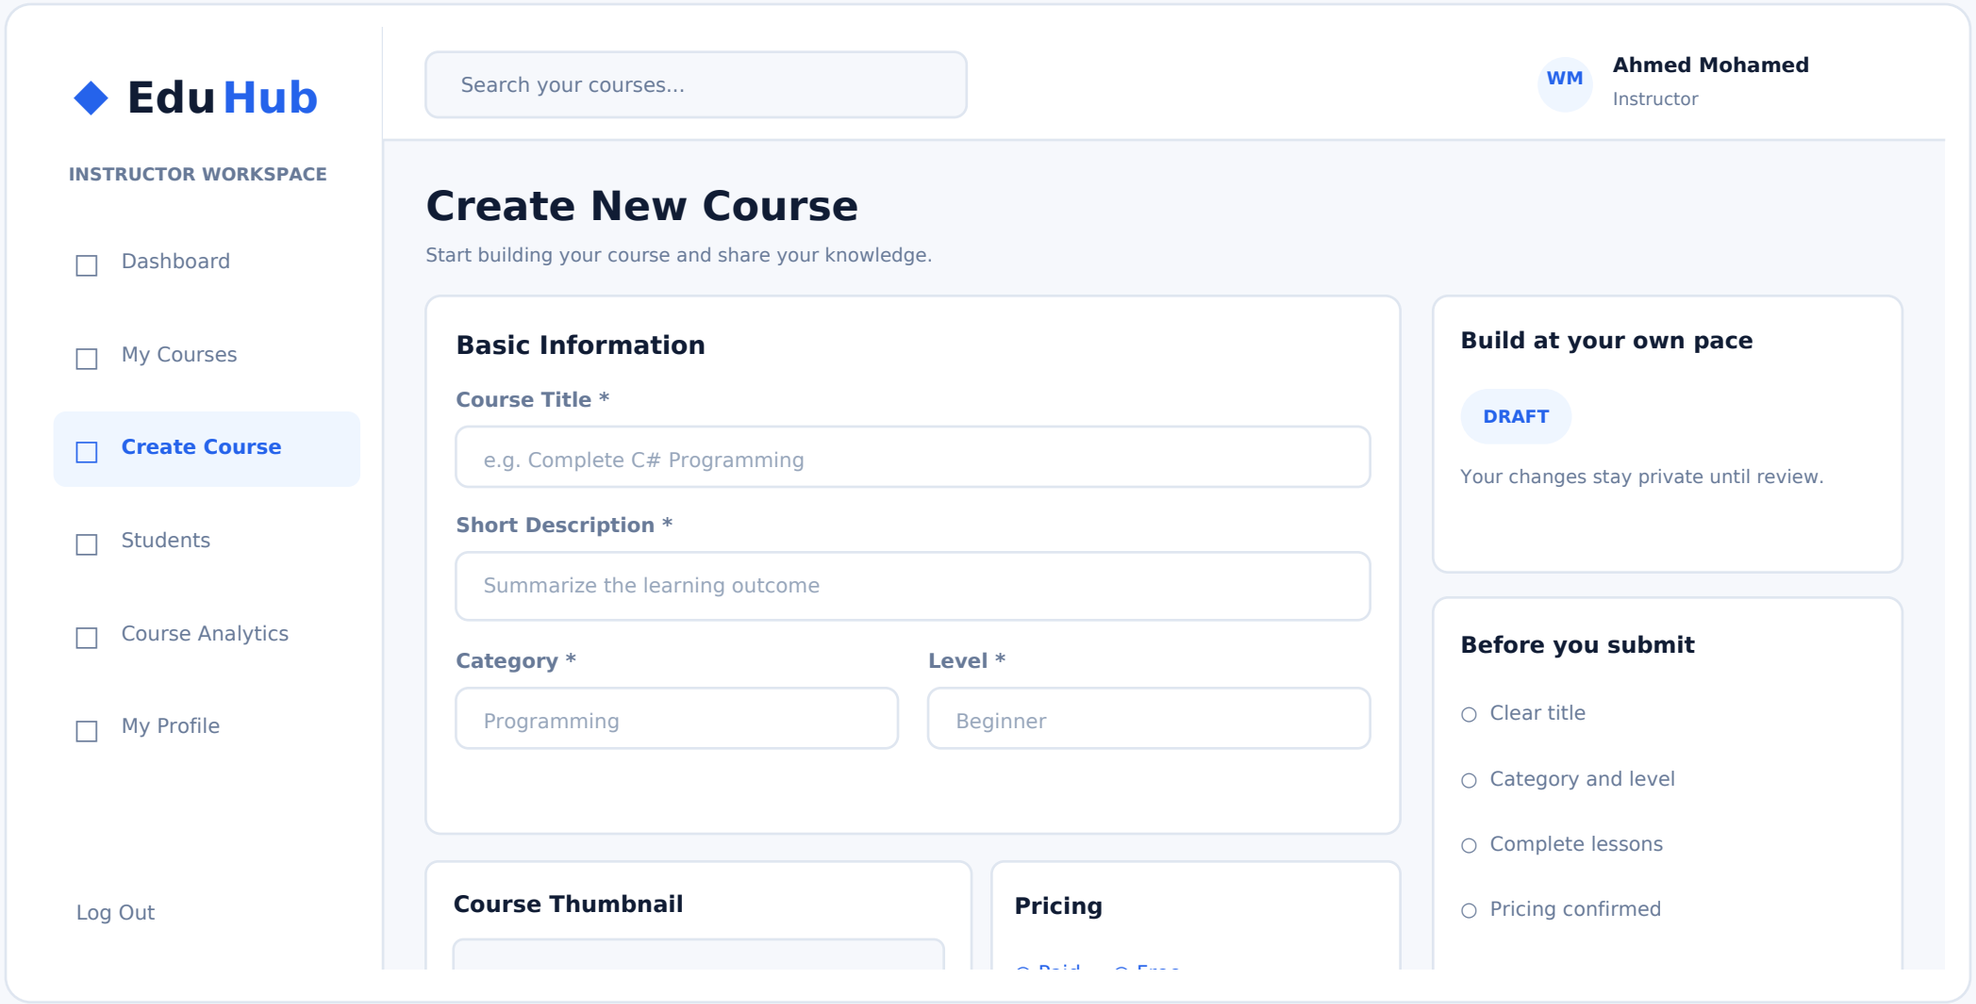

**Student**

1. Personalized certificate details
2. Unique verification identifier
3. PDF export and share CTA

FIGMA SOURCE ↗

# MU-06 Create a course

Figma source: Create Course - desktop

## SCREEN NOTES

**ROLE**

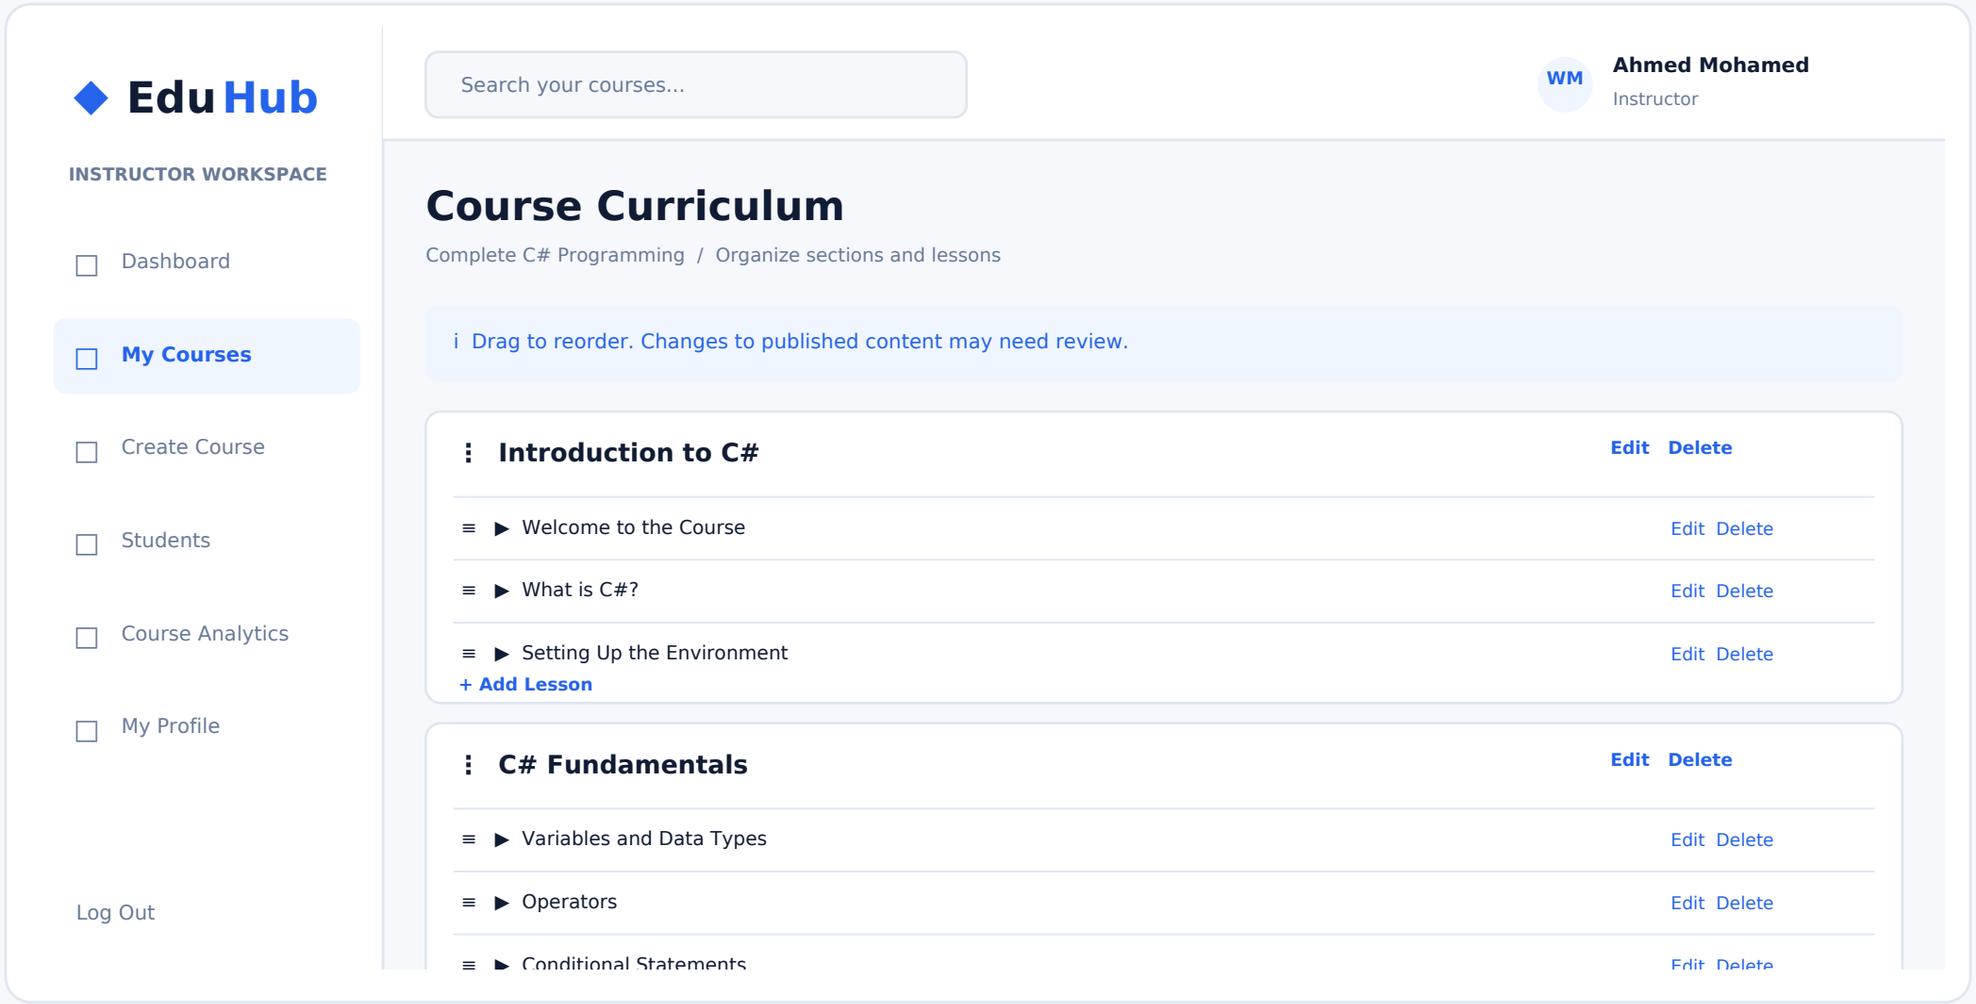

**Instructor**

1. Structured course fields
2. Thumbnail and pricing controls
3. Draft and review guidance

FIGMA SOURCE ↗

# MU-07 Organize curriculum

Figma source: Course Curriculum - desktop

## SCREEN NOTES

**ROLE**

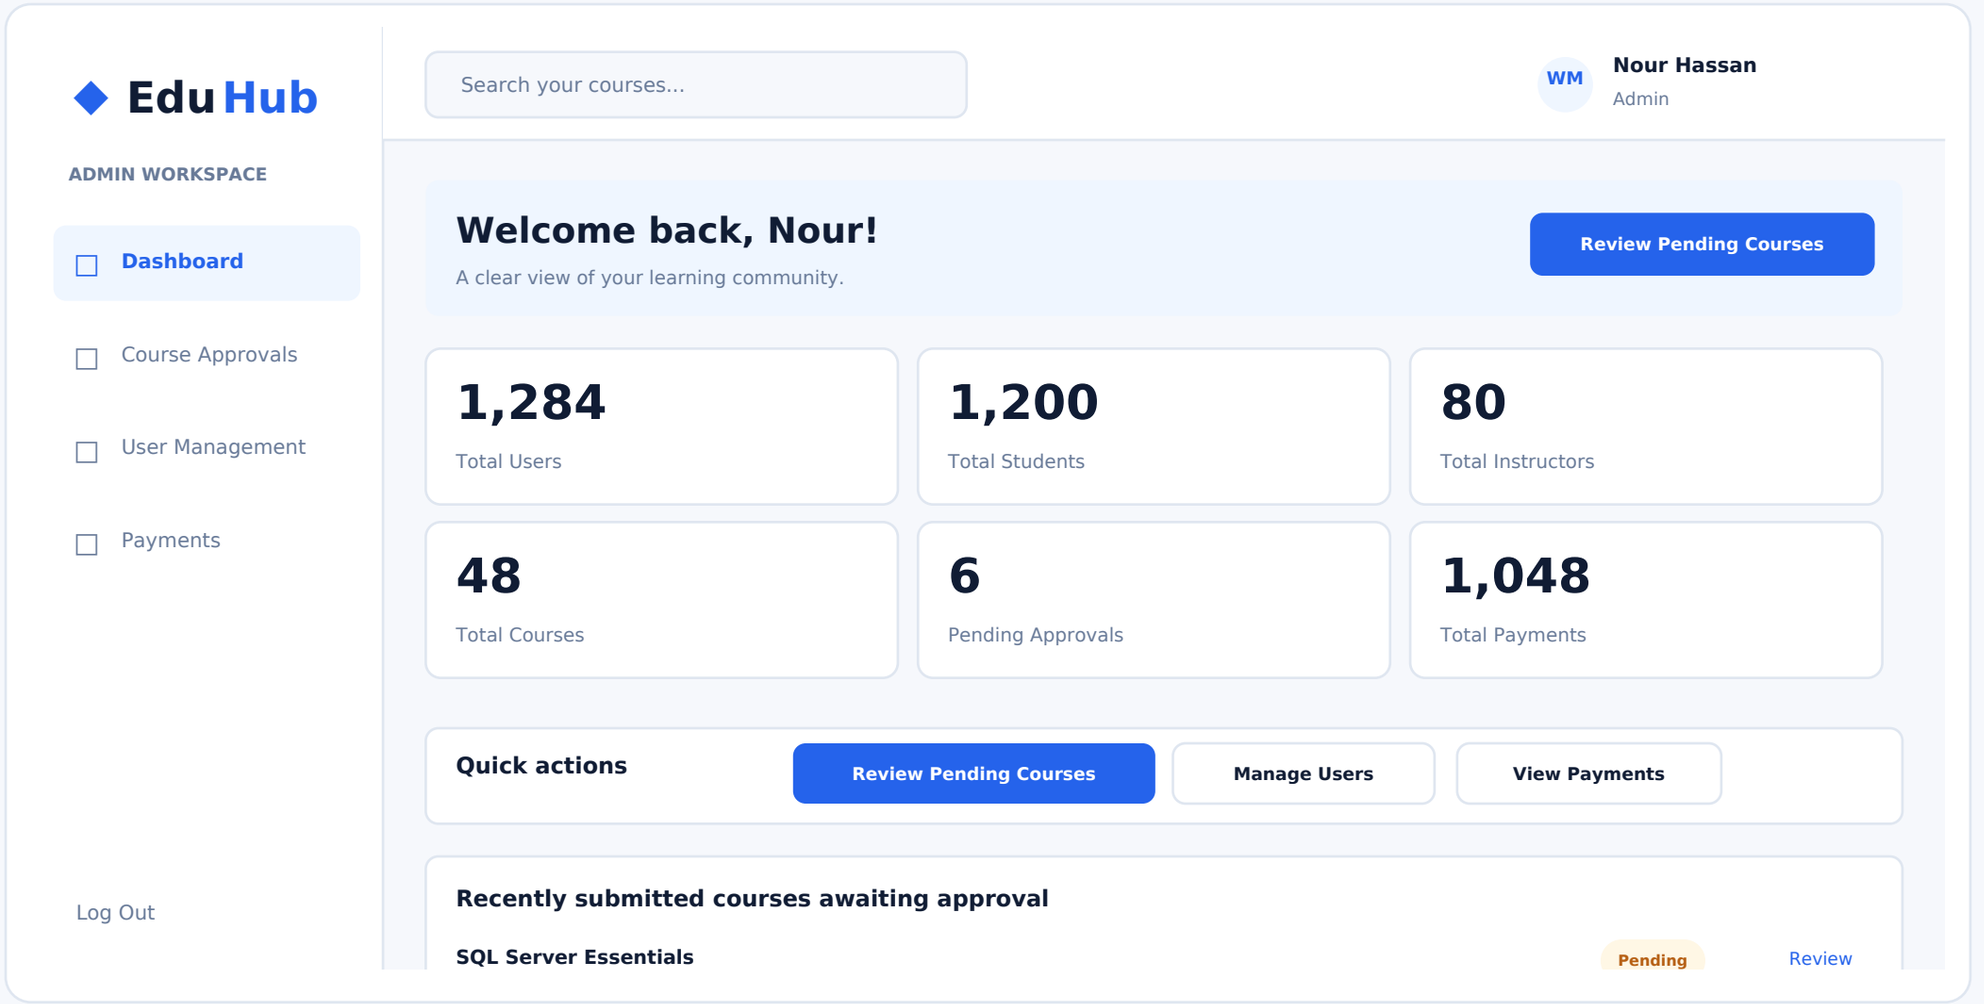

**Instructor**

1. Sections contain ordered lessons
2. Drag reorder and edit actions
3. Add section / lesson pathways

**FIGMA SOURCE ↗**

# MU-08 Admin overview

Figma source: Admin dashboard - desktop

## SCREEN NOTES

ROLE

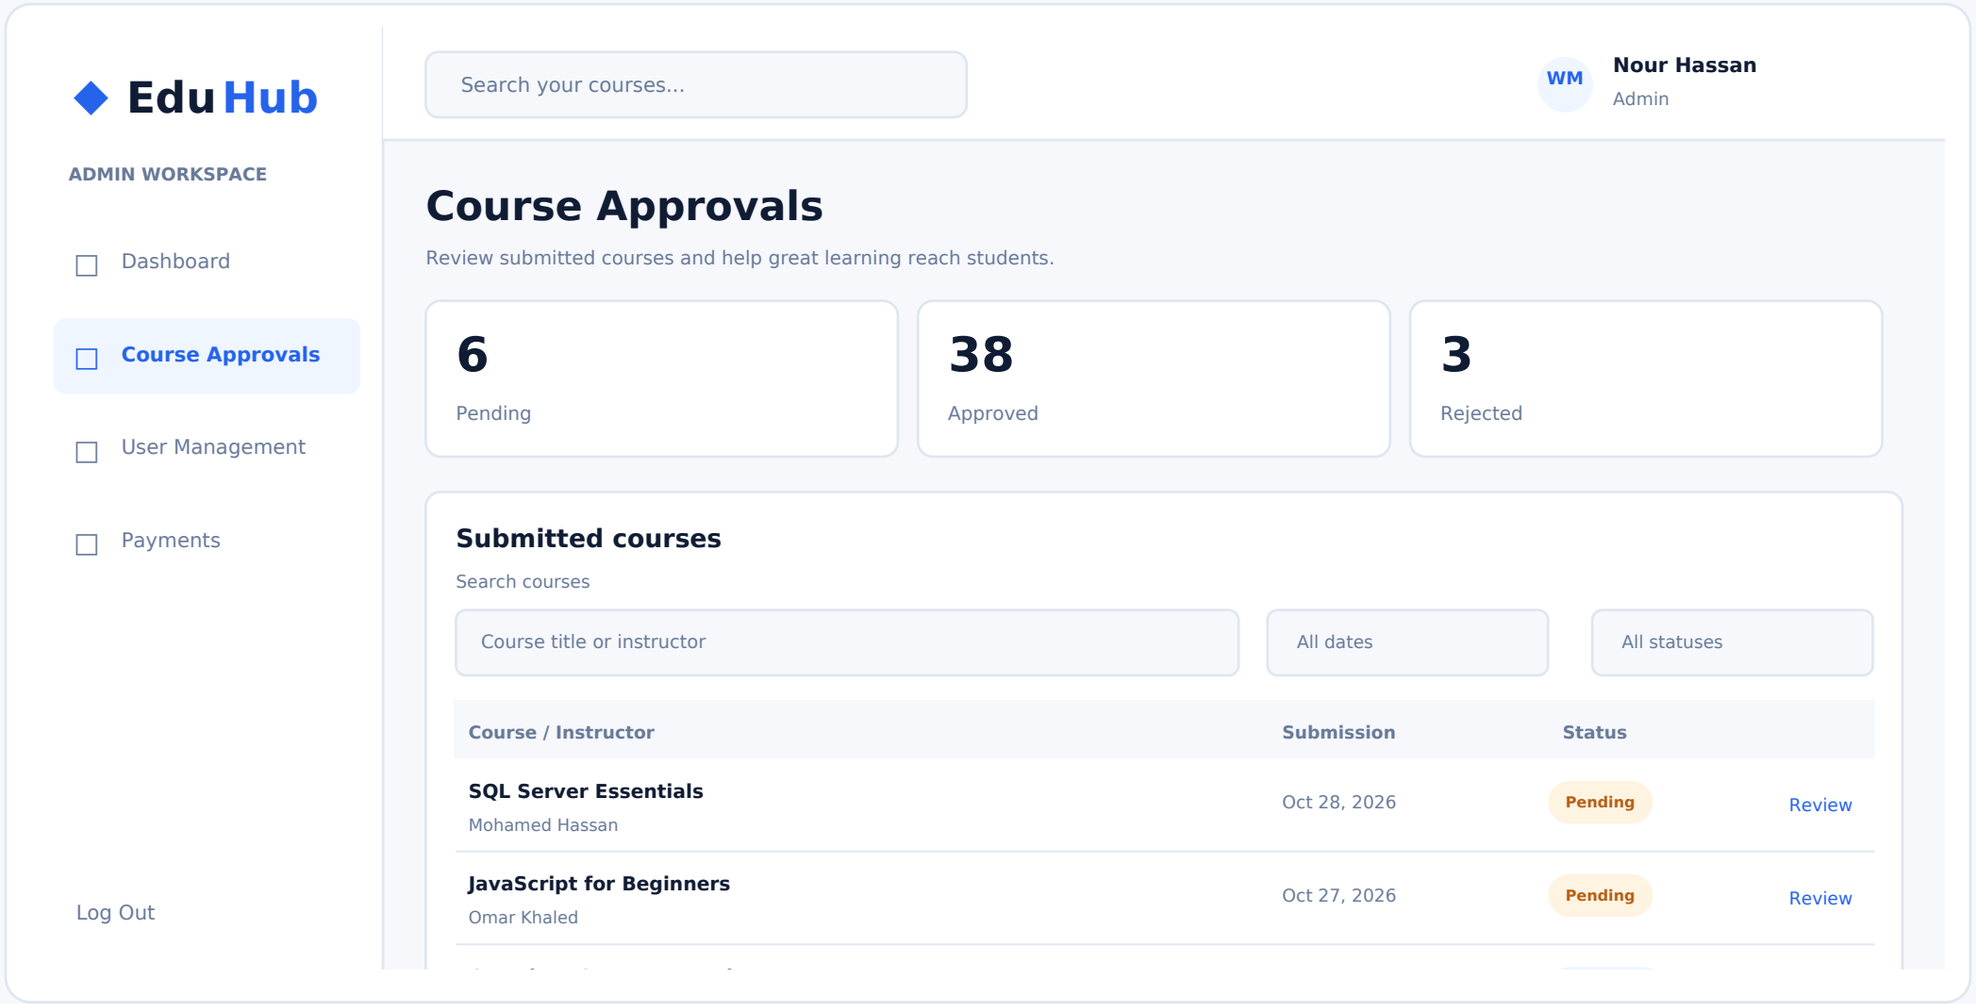

**Admin**

1. Operational KPIs
2. Fast access to approvals
3. Review queue snapshot

FIGMA SOURCE ↗

# MU-09 Course approvals

Figma source: Approvals - desktop

## SCREEN NOTES

**ROLE**

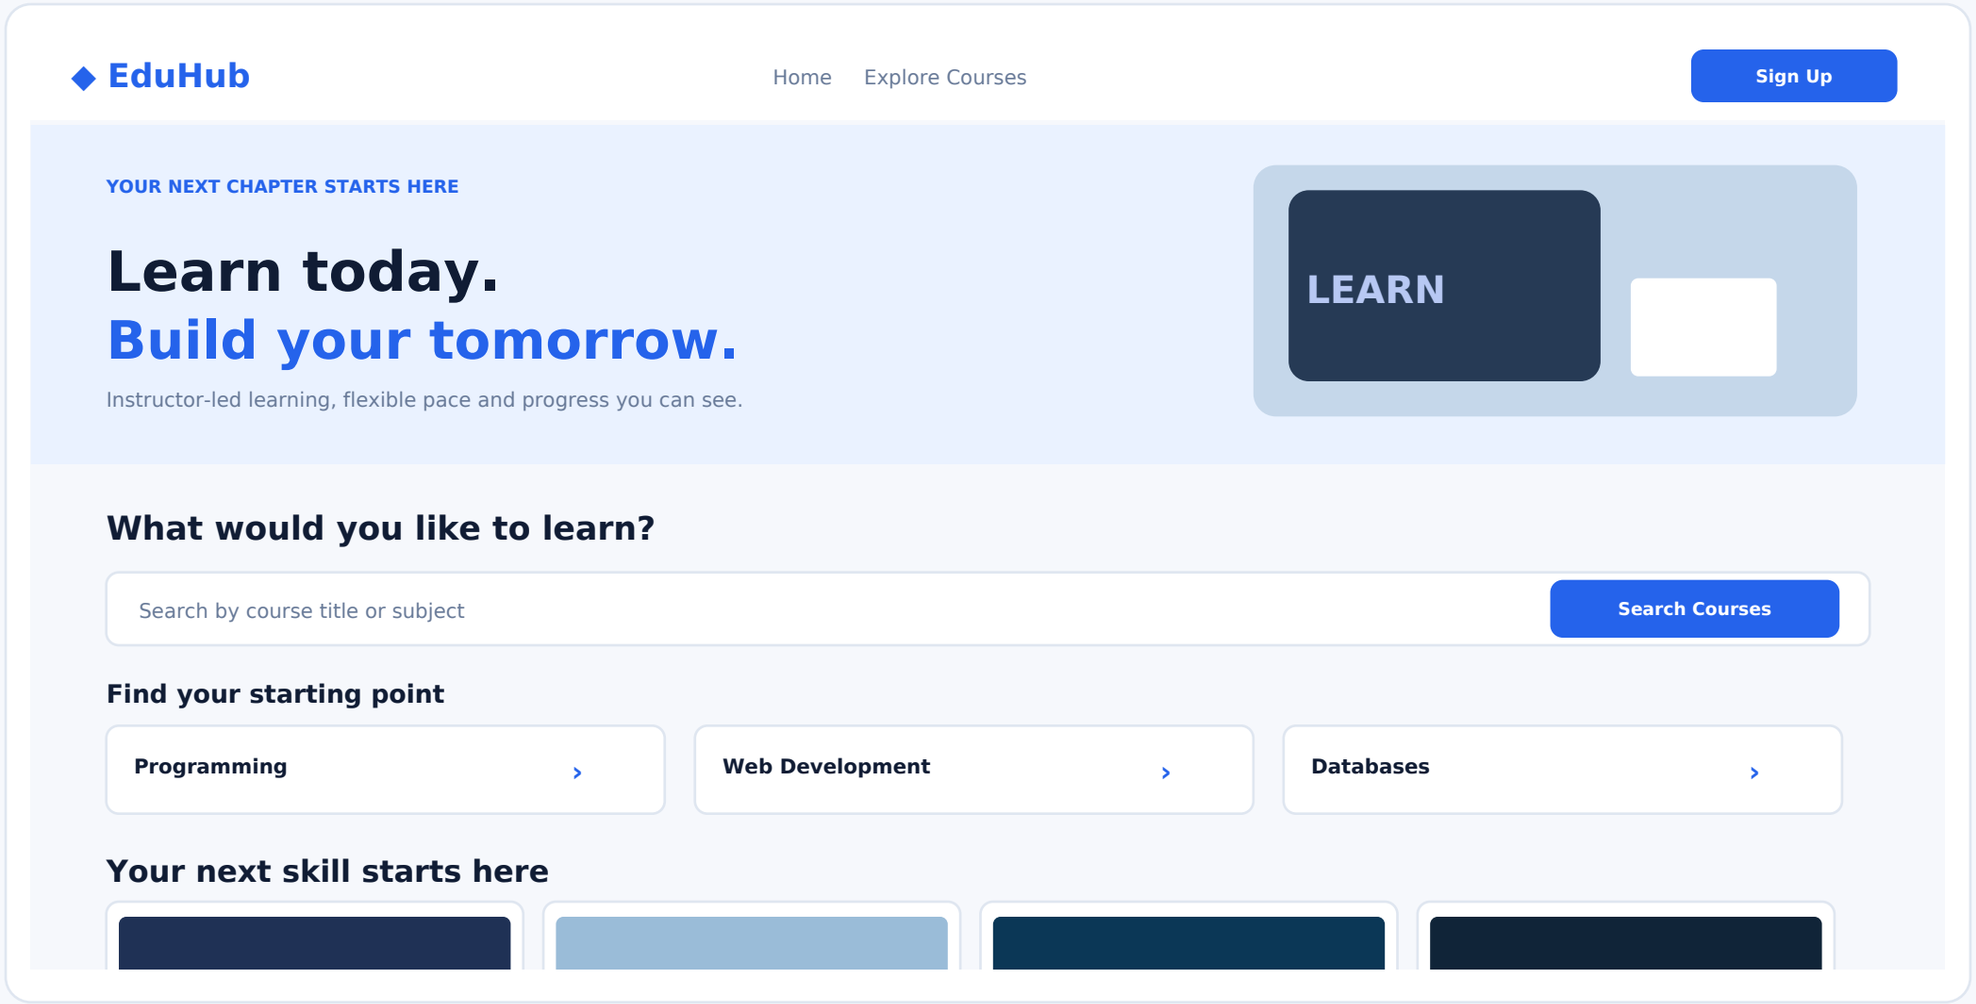

**Admin**

1. Pending / approved / rejected
2. Search, date and status filters
3. Per-course review entry

FIGMA SOURCE ↗

# MU-10 Public course discovery

Figma source: Homepage - desktop

## SCREEN NOTES

ROLE

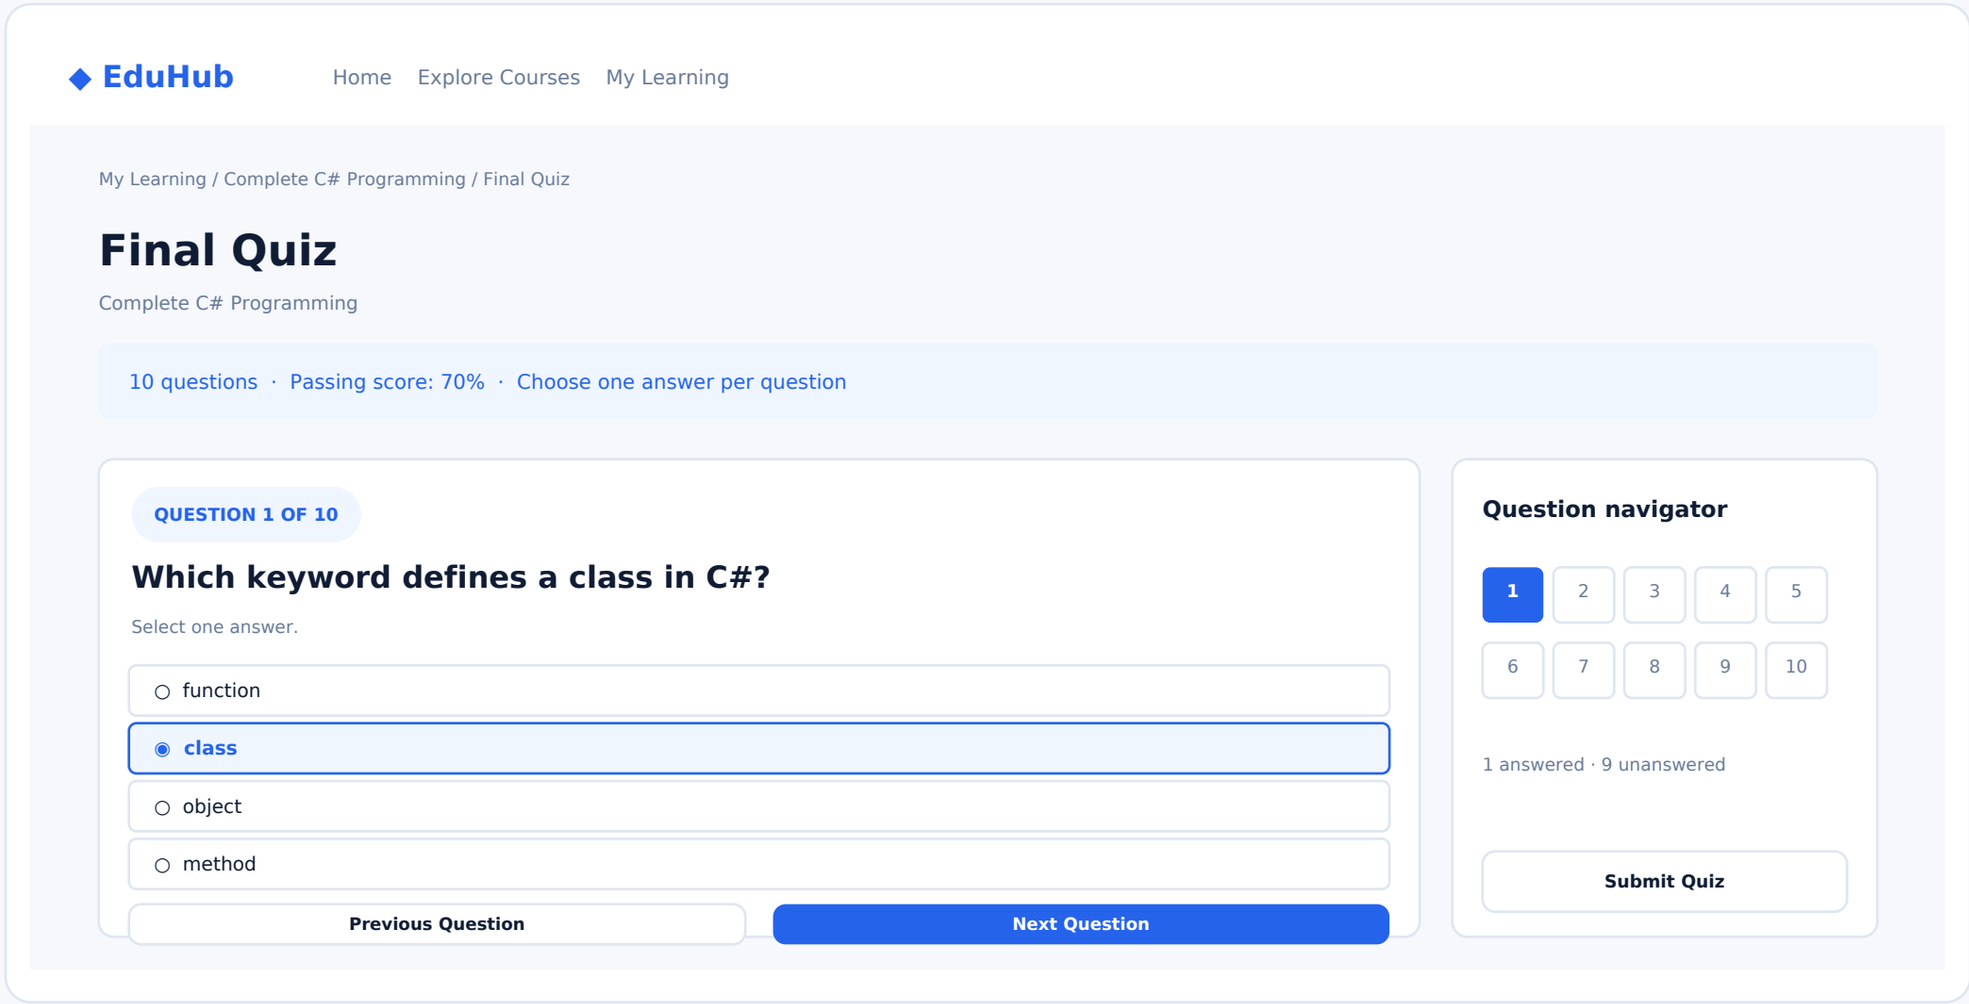

**Guest / Student**

1. Value statement and CTA
2. Search and subject discovery
3. Curated course-card previews

FIGMA SOURCE ↗

# MU-11 Final assessment

Figma source: Final Quiz - desktop

## SCREEN NOTES

**ROLE**

**Student**

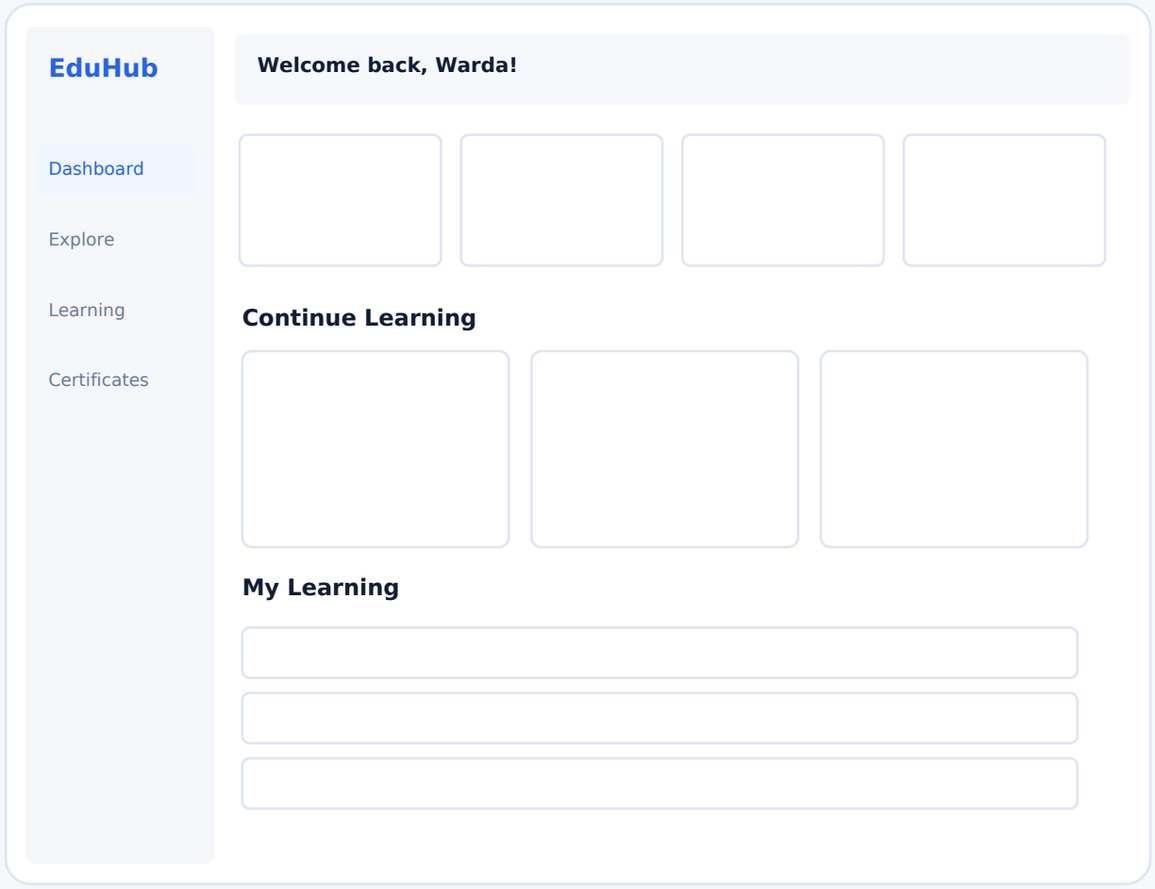

1. Question navigation and progress
2. Selected answer state
3. Submit with passing-score rule

FIGMA SOURCE ↗

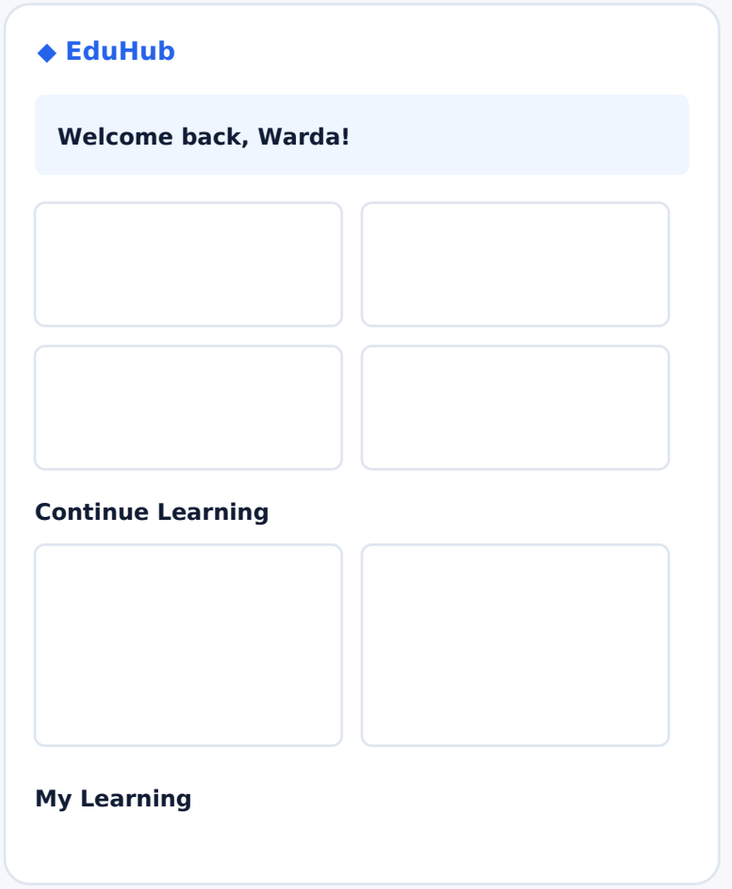

# Responsive composition

Equivalent student dashboard information at observed Figma widths: 1440 / 834 / 390

DESKTOP | 1440

TABLET | 834

MOBILE | 390

Layouts are schematic, not pixel replicas

# States, feedback and guardrails

Exceptions and outcomes explicitly represented by Figma and/or the supplied project brief

PAYMENT

## Processing → Successful / Failed

Keep checkout status visible; do not imply enrollment until confirmed.

Figma node: 22:41044

QUIZ

## Question → Pass / Fail

Display result, score, explanations and next permissible action.

Figma node: 22:41829

CERTIFICATE

## Locked → Available

Issue certificate only after policy-defined completion and passing assessment.

Figma node: 22:41941

APPROVAL

## Draft → Pending → Approved / Rejected

Instructor submits; admin adjudicates; public listing depends on approval.

Figma node: 26:88267

ACCESS

## Authorized / Access denied

Route back to the correct role workspace without showing restricted content.

Figma node: 70:43741

NETWORK

## Loading → Loaded / Retry

Present helpful retry, loading and empty feedback; prevent duplicate submissions.

Figma node: 70:44292

# Open decisions and design gaps

Issues to settle before turning visual prototypes into functional .NET pages

**D-01**

### Admin role in public registration

The sign-up Figma shows Student / Instructor / Admin. Confirm whether admins should only be provisioned by authorized operators.

**D-02**

### Demo checkout versus live Stripe

The current Figma checkout states it is a demo and does not process payments; the brief requires Stripe. Update interaction copy once real Stripe is integrated.

**D-03**

### Public certificate verification

The brief requires public certificate verification. Confirm and link the final publicly accessible verification screen and invalid-code state.

**D-04**

### Review / rating interactions

Course ratings and helpful votes are required; confirm the student submission, validation and moderation states before implementation.

**D-05**

### Responsive acceptance

Figma contains 1440 / 834 / 390 references. Agree on implementation breakpoints and whether intermediate widths reflow as designed.

# Requirements → screen mapping

Functional scope from the supplied five-page EduHub project brief

| ID | PROJECT CAPABILITY | UI EVIDENCE | BRIEF | PDF REF. |
|---|---|---|---|---|
| R-01 | **Three account roles** | Create account, sign-in, role navigation | p. 2 | WF-02 / MU-01 |
| R-02 | **Course discovery and filtering** | Homepage, Explore Courses, detail page | p. 2 | WF-01 |
| R-03 | **Instructor course builder** | Create Course, Curriculum, lesson editing | p. 3 | WF-06 / MU-06-07 |
| R-04 | **Video lessons and progress** | Course Learning, Notes, progress cards | p. 3 | WF-04 / MU-04 |
| R-05 | **Enrollment and Stripe payment** | Checkout, processing, payment outcomes | p. 4 | WF-03 / MU-03 |
| R-06 | **Quiz and pass score** | Final Quiz, pass/fail results | p. 4 | WF-04 / States |
| R-07 | **Reviews and ratings** | Course details + review interaction | p. 4 | WF-01 / Inventory |
| R-08 | **PDF certificates + verify** | Certificate, locked and verification states | p. 5 | WF-05 / MU-05 |
| R-09 | **Admin approval / user management** | Admin dashboard, approvals, users | p. 5 | WF-07 / MU-08-09 |
| R-10 | **Analytics & reports** | Dashboard KPIs and instructor analytics | p. 5 | MU-08 / Inventory |

# Handoff & review checklist

Design validation and development readiness

## Review checklist

- [ ] Confirm roles and registration policy.
- [ ] Approve desktop / tablet / mobile behavior.
- [ ] Confirm all interactive states and error copy.
- [ ] Validate form field requirements and defaults.
- [ ] Verify checkout security and payment status UX.
- [ ] Validate access, focus, labels and contrast.
- [ ] Agree on final Figma component references.

## Sources and authoritative links

### 01 EduHub project brief

EduHub_ProjectDetails(2).pdf, pp. 1-5. Course-management, learning, payment, assessment, certificates and admin scope.

### 02 Existing EduHub Figma design

Editable visual source. All mockup redraws and inventory references originate from this supplied design.

### 03 W3C accessibility reference

WCAG 2.2, W3C Recommendation, for keyboard use, contrast, accessible names and feedback semantics.

**NOTE** Mockups represent Figma-aligned layouts. Implement interactions and eligibility rules in the .NET application, not in the PDF.
